

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

APHILION Q² - "BALANCE", SUBFUND OF APHILION Q² SICAV ISIN: BE6270159799 SELF MANAGED SICAV

OBJECTIVES AND INVESTMENT POLICY

The assets of the subfund "Aphilion Q2 - Balance" are mainly invested in shares and comparable securities of countries belonging to the OECD, principally Western Europe, the USA and Japan. The subfund aims to be more than 95% invested in equities, but always holds a small percentage of liquidity to allow for flexible portfolio management.

The subfund will limit the resulting equity-market risk by hedging it through derivatives on stock indices. On average 75% of this equity-market risk will be hedged, but this can vary between 0% and 100% depending on the market expectations of the portfolio managers and the level of market volatility.

The assets are invested with the goal of generating value increase in the mid-long term. The underlying investment philosophy

consists of searching for promising shares and economic sectors which can achieve above-average performance so that even with most of the equity-market risk hedged, a positive absolute return can be achieved.

Investors can redeem their shares in the fund at any time. The orders are executed once weekly at the net asset value, calculated weekly on Thursdays.

All income (dividends) received by the fund is reinvested in the fund (accumulation shares only).

Note: this fund may not be suitable for investors with an investment horizon less than 5 years.

RISK AND REWARD PROFILE

This risk indicator provides an estimate of the potential return and of the risk of losing all or part of your initial capital. Generally speaking the prospect of higher returns means higher risks are being taken.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. Furthermore the risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

The fund is classified in category 4 because investments in equities are subject to considerable fluctuations, depending on global economic and monetary conditions (the business cycle).

Although this equity market risk is partially hedged, you still risk recovering a lower amount from the fund than your initial investment when equity markets fall.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Specific company and industry factors can also cause volatility. World equity markets are highly correlated so that even a well-diversified portfolio can be subject to strong fluctuations.

The fund invests worldwide and is subject to currency fluctuations (mainly USD, JPY and GBP) which can lead to changes in the value of the investments in Euro.

The fund is subject to an operational risk linked to the human and technical resources at its disposal. This risk is attenuated by the strong reliability of the IT infrastructure and by an experienced and competent management team.

CHARGES

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES PAID BEFORE OR AFTER YOU INVEST	
ENTRY CHARGE (« FROND-END LOAD »): THIS PERCENTAGE IS THE MAXIMUM AMOUNT THAT CAN BE CHARGED TO YOUR INVESTMENT BEFORE IT IS INVESTED IN THE FUND.	2.5%
EXIT CHARGE: THIS PERCENTAGE IS THE MAXIMUM AMOUNT THAT CAN BE CHARGED TO YOUR INVESTMENT BEFORE IT IS RETURNED TO YOU.	0%
SWITCHING BETWEEN SUB-FUNDS :	0%

The entry and exit charges shown are *maximums* rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

COSTS CHARGED TO THE FUND ANNUALLY	
ONGOING CHARGES:	1.93%

Ongoing charges are based on the charges for the previous year, ending on 31.03.2017. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges (brokerage), with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another Fund.

COSTS CHARGED TO THE FUND UNDER SPECIFIC CONDITIONS	
PERFORMANCE FEE:	20% OF THE TOTAL PERFORMANCE OF THE FUND LESS THE REFERENCE RATE OF 4%, WITH HIGH WATERMARK. LAST YEAR THIS WAS 0%.

For more information about Fund charges, for instance the performance fee and its method of calculation, please refer to the relevant sections of the prospectus, which is available at www.aphilion.com

PAST PERFORMANCE

The figures in the chart are historical and offer no guarantee for the future, nor do they bind the managers of the fund in any way.

They take all the charges mentioned above into account, with the exception of the entry charge.

The subfund was launched in September 2014.

All returns are calculated in euro.

PRACTICAL INFORMATION

Depository: **CACEIS BANK, BELGIUM BRANCH.**

More information on Aphilion Q², such as the prospectus, annual and semi-annual reports, can be obtained free of charge at www.aphilion.com or at CACEIS Belgium, Avenue du port 86C b.320 – 1000 Brussels, financial agent of the fund.
